MOSQUITO FOGGING BEGINS JULY 12

It's hot, it's sticky – it's the perfect weather for mosquitos. To help keep residents somewhat comfortable while outdoors, the Town of Brownsburg will treat for mosquitos from July 12-17 from 9 p.m. - 5 a.m.

The chemicals used in the treatment, known as "fogging," are safe for people and animals.

Treatments will follow the recycling route starting on the north side of Town and working to the south.

Residents with questions may contact Matt Griner at (317) 852-1113 or mgriner@brownsburg.org or reach out to the Town's Action Center by logging on to www.brownsburg.org.
